

HCLJ510-2012-99	Incident		
Dato:	23-03-2012	Tidspunkt:	Kl. 17:10:00 UTC
Skader på luftfartøj:	None	Sted:	EKCH

Luftfartøjet.

Registrering:	OO-DWB	Fase:	En route
Luftfartøjstype:	BRITISH AEROSPACE - AVRO RJ100	Formål:	Commercial Air Transport - Scheduled revenue ops - International
Flyveregler:	IFR		

Personskade.	Fatal	Serious	Minor	None	Unknown
Flyvebesætning:				4	
Passagerer:				83	

History of flight

During decent to FL140 inbound KOR, the commander reported loss of cabin pressure. The flight crew donned the oxygen masks. At approx. KOR FL80 the flight crew reported that the situation was under control. The subsequent landing in EKCH on RWY 04R was uneventful.

Subsequently there was found a defective bonding on the pressure control box. This defect led to a false indication of the cabin pressure.
